

Department of Psychology

Application for gift cards or grants for expenses in connection with data collection for thesis work

Students can apply for gift cards as symbolic compensation, up to 100 SEK per participant, or a contribution towards expenses when collecting data for thesis work. A prerequisite for receiving a gift card/contribution is that this cost cannot be met via other research funding within the project in which the thesis is carried out.

Gift cards/grants are only issued to students regarding the specific thesis work.

Attestations of issued gift cards will be done on a specific list connected to the thesis project.

If the application concerns grants for expenses in connection with the thesis work, a receipt must be attached.

The maximum amount for gift cards or grants for expenses is 5000 SEK/thesis.

Travel costs related to the thesis work will not be reimbursed.

Approved gift cards will be handed out by financial administrator John Flemström.

Complete the application below, including requested value of the gift cards or cost of expenses.

E-mail the application to study director Ingrid Lagerlöf, ingrid.lagerlof@psyk.uu.se, or put in her postal box in our mail room, floor 1, room 13:117.
